

ZEKE LIFE

Step-By-Step Guide to Cleaning Cushions

What You Need:

- Kitchen Dish Brush (only needed for difficult stains)
- Clean Microfiber Rag
- Zep Advanced Oxy Carpet & Upholstery Stain Remover
- Whip-It Odor Bully Odor Neutralizer Spray

Steps:

1. Generously spray the cushion with Zep in ~ 3" x 3" section. Use your judgment based on your stain, I would spray 2 - 3 times to get a good foam going when I scrubbed in step 3.
2. Wait ~ 1 minute to set in.
3. Scrub stains with dish brush or microfiber rag in a circular motion.
4. Repeat steps 1 - 3 as needed until the stain is gone.
5. Spray Odor Bully on all sides of the cushion. Again use your discretion, you may only need to spray once.
6. Stand cushion on end to completely dry.
7. Repeat for all cushions.

Estimated Time:

20 minutes per cushion. At least 24 hours of dry time.

Note: If you do not have a filthy cushion, it would definitely take you less spray, less scrubbing and less dry time because you won't need to get the cushions as wet as I did.

Also, you may have an option to remove the foam from outer fabric. I started to do this but found that it was very difficult to get the fabric back on the cushion. I did not see any difference with the end result, so I opted for the simpler solution and did not remove the foam for the rest of the cushions.
